

The Rogoz Review

Week of April 15th, 2019

Volume 5, Issue 31

WHAT WE ARE LEARNING

Last week we learned about the life cycle of a butterfly and the changes that occur during the life cycle. We created our own life cycles and they are coming home Monday. We know that butterflies are insects that have 6 legs and 4 wings. We also compared and contrasted butterflies and moths. We ended the week by discussing the parts of a butterfly and taking a closer look at its proboscis (what they use to eat). We were busy creating some very beautiful butterflies using watercolors and coffee filters. They are hanging from our ceiling so be sure to check those out.

This week we finish up learning about butterflies and learn the Easter story using Resurrection Eggs. Everyone will be creating their own set of eggs along with a book that they will be able to share with their family. We'll finish the week with some jellybean graphing and additional Easter fun.

Jesus Time: : "We believe that Jesus died and rose again."
1 Thessalonians 4:14

This week is about Good Friday, the story of salvation. We'll focus on the wonderful purpose of the cross - that Jesus willingly did this to take away our sins. The good news is that Jesus did not stay dead; He is alive - for us!
